

Sports Premium Funding

2014-2015 – Funding £9465

Our sports funding is enabling us to provide high quality PE provision through the employment of a fully qualified gym coach and a fully qualified sports coach. The school has extended the complement of staff to ensure that all pupils are able to learn about the benefits of partaking in physical exercise and a healthy lifestyle.

Pupils are being given access to a range of external competition, including trampolining, football, tennis and gymnastics. We are hoping to develop our sporting opportunities over the next two years which would include offering clubs at the beginning and end of the school day and lunchtimes.

Our sports coaches are also giving children opportunity to experience sports that are not often available in the usual school day such as trampolining, cheer leading and curling..

Both coaches work alongside other members of staff to ensure that skills are transferred to ensure sustainability.
£6265 (salary contribution)

Through collaborative work we are establishing a series of inter-school competitive sports. This gives all pupils the opportunity to partake at their individual school and through a selection process they are able

to partake in inter-school competitions.

£500

Our sports funding is helping us to provide an exciting outdoor adventurous activities programme including opportunity to experience bushcraft , archery, den building, orienteering and sailing.

£2700

Preparing our pupils for a healthy and active lifestyle, engaging in healthy eating options, and partaking in competitive sports is a key aim of the school and we endeavour to make sure our pupils are ready for any new challenges ahead.
