

Groups 3 & 4 Thursday 4th February, 2021

L.O. use multiples and a number line to divide larger numbers

S.C. Know what a multiple is

Know my times tables

Understand equal groups to divide

Count back to divide

Add jumps to find answer

Use a number line to divide large 2 digit numbers.

$78 \div 6$

There is one group of 10, and 3 groups of 6 so altogether, 13 groups so:

$78 \div 6 = 13$

1. $56 \div 4 =$ _____

0

56

2. $87 \div 3 =$ _____

0

87

3. $68 \div 4 =$ _____

0

68

4. $90 \div 5 =$ _____

0

90

5. $102 \div 3 =$ _____

0

102
