L.O. use a range of materials to create a human skeleton

S.C. place bones accurately to make the skeleton

Make different sizes and shapes of bones

Make your own human skeleton using different materials from around your house. Below are some ideas.

Pasta shapes

Painted cardboard tubes.
You could use rolled up paper.

Glue cotton buds to a dark background.

Paint handprint and
Cotton buds

Cut white paper to size
and shape and glue to
a dark background.

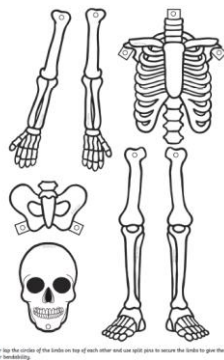

Sticks and twigs outside.

White chalk on dark paper/card.

Plastic milk bottles.

You could also use the 'Moving Skeleton' template and some paper clips or split pins.
