

L.O. explore the bones in our hands and feet

S.C. know that I have a skeleton

Know skeleton bones come in different sizes and shapes

Know bones have different jobs in my skeleton

Feel carefully over your hand and fingers. Can you feel the bones?

Count the bones in your hands. How many did you count? _____

Now count the bones in your feet. How many did you count? _____

Draw around your hand and a hand of someone in your family.

How many bones do they have in their hand? _____

Is their hand bigger? _____

How many bones do they have in their hand? _____

What do you notice? _____

Draw around your hand again. Draw in the bones that you felt in your fingers and hand.

Now measure the bones in your fingers in cm. Label the bones with their measurements.

If you have drawn the bones in your finger, like this, then label with the measurements
