

Year 3 Term 6

ENGLISH

Fiction – The Great Kapok Tree

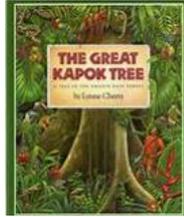

Writing a narrative using all the skills we have been using this year.

Non-Fiction – Persuasion Texts

Write a persuasive text to get people to do something!

Poetry

Write a free verse poem

MATHS

Number Maths – All four operations

Add and Subtract

Multiply and Divide

Problem Solve

Estimate answers and use inverse to check answers

Topic Maths - Time

Tell the time

Compare duration of events

RE

What can we learn from religions about what is right and wrong?

PE

We will be focusing our learning on Rounders and Cricket.

Please make sure you have your PE kit daily.

Term 6 Creative Curriculum topic is ...

THE ENCHANTED WOOD

As scientists, we will become aware of plants in our local area, their features and what enables them to grow in specific habitats. Our studies will lead us to ask, "What does a plant need to grow?" Using the style of artist Maria Sybilla Merian will enable us to make accurate representation of local plant life. As mathematicians and storytellers, we will be applying our knowledge, skills and understanding of light when forming venn diagrams and role playing a story. Thinking scientifically, our explorations of light and shadow will provide us with an understanding of factors that affect shadow formation.

In **Geography** we will be...

- planning and plotting a route to the woods.
- locating countries, the equator and a rainforest on a map

In **Computing** we will be...

- understanding and applying algorithms
- analysing problems and writing computer programs
- evaluate and apply information creatively

In **Music** we will be...

- reading musical notation
- playing a melodic instrument following staff notation

In **French** we will be...

- learning vocabulary relating to school and the time of day

In **PSHE** we will be ...

- learning why we should keep active and sleep well

We are very proud of our school values and encourage our children daily to demonstrate and uphold them.
