

What numbers are represented?

a)

b)

c)

Circle the base 10 or counters to show each number.

a) 2,053

Each number has the digit 5 in a different place.

Match each number to the correct value.

511

5 thousands

5,103

5 hundreds

6,950

5 tens

695

5 ones

Complete the part-whole models and the number sentences.

a)

$$735 = \square + \square + \square$$

c)

$$613 = \square + \square + \square$$

Complete the part-whole models.

a)

b)

Complete the table.

Number	3,561	9,730	21,075	903
Rounded to the nearest 10				
Rounded to the nearest 100				
Rounded to the nearest 1,000				

Write $<$, $>$ or $=$ to compare the numbers.

a)

Th	H	T	O
1	4	9	0

Th	H	T	O
2	0	7	5

b)

Th	H	T	O
6	2	0	1

Th	H	T	O
6	2	3	5

c)

Th	H	T	O
7	0	0	5

Th	H	T	O
6	9	2	7
