## E-SAFETY – FAKE NEWS

Today we're diving into the world of fake news. What is fake news, you ask? Well, it's when people share information that isn't true or is disguised as a real story, but it's just made up! Sometimes, it looks like it's from a trustworthy source, but it's important to remember that not everything we read online is accurate.

Being smart about what we see on the internet is super important for staying safe. When you come across a story that seems strange or unbelievable, take a moment to think! Ask yourself questions like, "Is this real?" or "Who wrote this?" It's always a good idea to double-check information by looking at other reliable sources or asking an adult.

By learning to spot fake news, you can become an online superhero, fighting against misinformation. Stay safe and keep questioning!
